TRAVELLERS ARE CONSIDERED FULLY VACCINATED:

2 weeks after their second dose in a 2-dose series, such as the AstraZeneca, Pfizer or Moderna vaccines,

OR: 2 weeks after a single-dose vaccine, such as Johnson & Johnson's Janssen vaccine
Fully vaccinated travellers who have travelled to, or are transiting through a high-risk country (as defined by the Ministry of Health due to a high prevalence of a COVID variant), shall follow the protocols of an UNVACCINATED TRAVELLER as detailed on https://covid19.gov.gd/.

*Travellers with a 14-day travel history from India and Brazil are barred from entering Grenada.*
Travellers who normally reside in the same household will be treated as UNVACCINATED, if a member of that household is part of the travelling party, and has not been fully vaccinated (regardless of age).

Adults travelling in a group where some are vaccinated and others are not, and choose not to separate, shall all be treated as UNVACCINATED.
Fully vaccinated travellers may apply for 48-hour home quarantine, providing that all members of their travelling party have been vaccinated. Parties travelling with minors do not qualify for 48-hour home quarantine, and must apply for 7-day home quarantine.

Fully vaccinated travellers may apply to home quarantine with other fully vaccinated residents of the household in Grenada, providing that all members of the household have been fully vaccinated. The household cannot be occupied with minors. All members of the household would have to be quarantined until the traveller has been medically cleared.
Travellers are required to book accommodations at an approved facility for a minimum of 2 nights.

You are to remain in quarantine, with no movement on the property until you are medically cleared by health officials.
A negative PCR test is required 72 hours before travel to Grenada.

PCR test will also be administered upon arrival in Grenada at the airport, at the traveller's expense.

Test must be paid for prior to applying for travel to Grenada, via the Government of Grenada's online payment gateway pay.gov.gd.
All travellers to Grenada must apply online for a travel authorization certificate travelauth.health.gov.gd before travelling to Grenada.

Upload a digital copy of your vaccination card when requested.

The approved travel certificate must be presented at time of boarding.
PROOF OF VACCINATION

Travellers are required to present proof of vaccination upon arrival in Grenada.

Vaccination card or certificate must be in English.

Original vaccination card is required.
